Explanation on application of the practice	:	
Explanation for departure	:	<p>The Board is of the view that a physical general meeting facilitates more effective engagement and interaction between the Board and shareholders. As such, the Company currently prefers to convene its general meetings in a physical format.</p> <p>The Board has considered to adopt a hybrid format for the Company's general meetings to facilitate remote participation and electronic voting by shareholders. However, after taking into account the current size and geographical distribution of the Company's shareholder base, as well as the costs and infrastructure required to support such technology, the Board is of the view that convening the general meetings on a fully physical basis remains appropriate at this juncture.</p> <p>The Board further considers that physical general meetings provide a suitable platform for effective engagement and direct interaction between the Directors, senior management and shareholders. Notwithstanding the absence of remote participation facilities, shareholders who are unable to attend the meeting in person may still exercise their voting rights by appointing a proxy to attend and vote on their behalf by submitting the proxy form within the prescribed timeframe.</p> <p>Nevertheless, the Board will continue to assess the feasibility of adopting a hybrid meeting format in the future, taking into consideration the growth of the Company, the feedback from shareholders, as well as the cost effectiveness and practicality of implementing the necessary technology.</p>
